

Slim^{PM}

L-ARGININE
DIETARY SUPPLEMENT

It's Back.
The worlds
most complete
L-Arginine
formulation
available.

STAR LIGHT, STAR BRIGHT WITH SLIM^{PM} | CAN BURN FAT AT NIGHT.

Slim^{PM} is an L-Arginine-based product that includes powerful antioxidants for free radical scavenging, enhanced repair, and health integrity of endothelial cells that may be clogged with unwanted contaminants. L-Arginine naturally contains some capability to burn fat through the stimulation of the hypothalamus gland. But additional components, such as Niacin, were added to assist in removing plaque from the arterial walls and Branched Chain Amino Acids too, for faster recovery and better muscle toning for those that exercise regularly.

But that's not all. We decided to add components that would assist in fat burning while you sleep. Now that is a breakthrough, because most fat burning products increase metabolic rate, and that's not good if you're trying to sleep! To burn fat and sustain it requires your body to be in the right state for fat burning.

Slim^{PM} also has the ability to assist in balancing out the Leptin levels in your body. We added Rhodiola Roseo to the already powerful formulation to turbocharge the regulation of leptin levels. The combination of all these components makes Slim^{PM} what it is – the **FIRST COMPLETE FAT BURNING L-ARGININE FORMULATION IN THE KNOWN UNIVERSE.**

Burn Fat. Cleanse your Arteries. Enable Better Blood Flow. Increase Endothelial Cell Integrity.

Supplement Facts

Serving size: 1 Scoop
Approx Servings per container: 20

	Amt. per serving	%DV
Calories	90	
Calories from Fat	40	
Total Fat	4.5g	7%
Saturated Fat	4.3g	21%
